Executive Summary

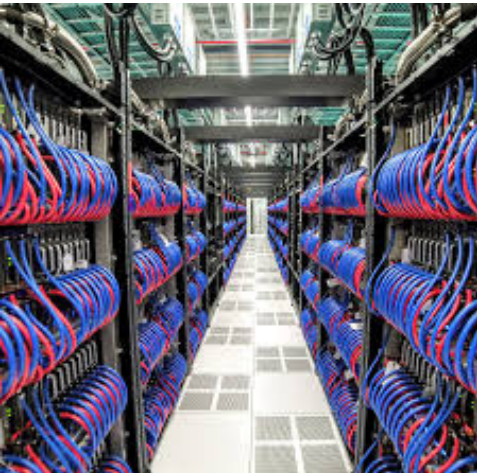

Saudi HPC/AI 2026 is a leading national event focused on advancing High Performance Computing (HPC) and Artificial Intelligence (AI), bringing together key figures from academia, industry, and government to explore innovation, research, and collaboration. This is an exclusive sponsorship opportunity designed to give organizations premier brand visibility, targeted engagement, and strategic positioning within Saudi Arabia's growing HPC ecosystem. Through tiered packages; Silver, Gold, and Platinum; sponsors gain access to high-impact exposure, direct interaction with decision-makers, and long-term partnership potential, making Saudi HPC/AI 2026 a powerful platform for influence and networking.

Saudi HPC/AI 2026 offers a dynamic forum for exploring the future of computational science and emerging technologies. Designed to connect academia, industry, and government, the conference highlights real-world applications of high performance computing in areas such as artificial intelligence, big data, and scientific research. Through an engaging mix of presentations, tutorials, and exhibitions, Saudi HPC/AI fosters collaboration and drives innovation in support of the Saudi Vision 2030 goals.

About Saudi HPC/AI

Saudi HPC/AI 2026 is a national conference dedicated to advancing the field of high performance computing (HPC) and Artificial Intelligence (AI) in Saudi Arabia. Scheduled to take place in KAUST from October 26–28, 2026, the event brings together researchers, academics, industry leaders, and government stakeholders to explore cutting-edge developments in HPC technologies, AI, data analytics, and computational science.

Now in its latest edition, Saudi HPC/AI serves as a strategic platform for knowledge exchange, collaboration, and showcasing innovations that support the Kingdom's digital transformation goals under Saudi Vision 2030. The event features keynote speakers, technical sessions, hands-on workshops, and a vibrant exhibition hall, offering an ideal environment for both academic dialogue and industry engagement.
